Contents of Volume 15

Vol. 15, No. 1

Adhesive joints of light metals with polymers 1
V. V. Arslanov and V. A. Ogarev (Moscow, U.S.S.R.)

Anticorrosive water-borne paints 33
B. Biegańska, M. Zubielewicz and E. Śmieszek (Gliwice, Poland)

RESEARCH PAPERS

Properties and applications of anticorrosive coatings from secondary thermoplastic materials 57
V. N. Kestelman, L. M. Khananashvili, V. Ya. Bulgakov and V. M. Ushomirsky (Moscow, U.S.S.R. and Tbilisi, U.S.S.R.)

A novel coating based on poly(etheramine-quinone) polymers 63
K. Kaleem, F. Chertok and S. Erhan (Philadelphia, PA, U.S.A.)

Solvent evaporation rates measured by gas chromatography 73
R. C. Castells and M. L. Casella (La Plata, Argentina)

Solubility of epoxy resins 83
N. Defrecheux, M. C. Haulait-Pirson, V. Rasneur and A. Toussaint (Limelette, Belgium)

Forthcoming Meetings 93

Vol. 15, No. 2

Special Notice 97

The principle of spectral evaluation in pigment testing. A review of 20 years' application of a successful method 99
H. G. Völz (Krefeld-Uerdingen, F.R.G.)

Surface characterization of iron and steel prior to coating 125
G. Reinhard (Dresden, G.D.R.)

RESEARCH PAPERS

Modified epoxy polymers used as adhesives.
Part 1. Structure of epoxy polymers modified with reactive amphiphilic monoepoxy esters of fatty acids 149
V. V. Arslanov, G. A. Lipson, A. E. Chalykh and V. A. Ogarev (Moscow, U.S.S.R.)

Modelling of drying of coatings: effect of the thickness, temperature and concentration of solvent 163
H. P. Blandin, J. C. David, J. M. Vergnaud (St. Etienne, France), J. P. Illien and M. Malizewicz (Vitry, France)

Forthcoming Meetings 173

Vol. 15, No. 3

Introduction 177
G. P. Bierwagen (Chicago, IL, U.S.A.)

The science of durability of organic coatings: a foreword 179
G. P. Bierwagen (Chicago, IL, U.S.A.)

Photostability of acrylic/melamine enamels. Effect of polymer composition and polymerization conditions on photo-initiation rates 197
J. L. Gerlock, D. R. Bauer, L. M. Briggs (Dearborn, MI, U.S.A.) and J. K. Hudgens (Mt. Clemens, MI, U.S.A.)

Rapid, reliable tests of clearcoat weatherability: a proposed protocol 209
D. R. Bauer, J. L. Gerlock and R. A. Dickie (Dearborn, MI, U.S.A.)

Quantitative evaluation of photodegradation in coatings 223
S. G. Croll (Chicago, IL, U.S.A.)

Titanium dioxide's contribution to the durability of paint films 249
J. H. Braun (Wilmington, DE, U.S.A.)

Evaluation of degradation data by time series analysis 261
T. K. Rehfeldt (Chicago, IL, U.S.A.)

Electrochemical testing to assess corrosion protective coatings 269
B. S. Skerry and D. A. Eden (Chicago, IL, U.S.A.)

Forthcoming Meetings 287

Vol. 15, No. 4

Simultaneous electrodeposition of polymers and metals 291
Yu. F. Deinega and Z. R. Ulberg (Kiev, U.S.S.R.)

Application of field desorption mass spectrometry to polymer and oligomer analysis 311
J. Saito, H. Waki (Yokohama, Japan), N. Teramae and S. Tanaka (Tokyo, Japan)

Methods of determining the state of pigment dispersion 337
J. Schröder (Ludwigshafen am Rhein, F.R.G.)

RESEARCH PAPERS

The effect of water on the adhesion of organic coatings on aluminium 355
V. V. Arslanov (Moscow, U.S.S.R.) and W. Funke (Stuttgart, F.R.G.)

Improvement of the resistance to water of an adhesive joint between polymers and aluminium by using thin adhesion layers 365
V. V. Arslanov (Moscow, U.S.S.R.) and W. Funke (Stuttgart, F.R.G.)

Flow and film properties of coatings containing microgels 373
S. Ishikura, K. Ishii and R. Midzuguchi (Osaka, Japan)

Book review 389

Forthcoming Meetings 391
